Subject: Conduct of Olympiad : DAVCAE

Dear Principal,

DAV Students across the country participate in the Olympiad in order to excel in the subjects of Science, Mathematics and ICT. Today our world is highly dependent on Science and IT, and the dependency is only growing by the day. Our students, who will become leaders of tomorrow, get an opportunity to analyse their skills and prepare for the future with these exams. Olympiad will help in identifying young genius, train their minds and skill at the right age in the right way. The training brings about a transformation to the classroom approach and makes Science and IT interactive, innovative and more practical for our modern generation.

In last couple of years students of DAV have shown enthusiasm, keenness and dedication in attempting the Olympiad. The growing number of students, every year shows the popularity of competition.

Technology is evolving day by day. Every year we try to make the implementation better than before. This year special steps have been taken to have a robust and smooth conduct of Olympiad for all children across PAN India as Olympiad provides a wonderful platform to all students to excel themselves in their interested subject. Some of the guidelines are given below for the smooth conduct of Olympiad.

Do's

- Inform the children about the subjects, likely date and time of Olympiad (Olympiad will likely to be held in month of Dec.22/Jan., 2023).
- Register your school children for the Olympiad as per the Instruction given by DAVCAE.
- Help the children to prepare topics as per the syllabus.
- Inform the children about exact date and time of their competition (as and when announced by DAVCAE).
- Brief the children about time allotted, method, how to attempt the online question paper and marking criteria.
- Brief the children about various technical problems, which may occur during the conduct of examination.

Don'ts

- Don't wait till last day for registration.
- Don't share Login id (Username) and Password before commencement of online competition.
- Don't encourage children to use unfair means for better score.

Thanking you,

Yours sincerely,
