

SUB-MATHEMATICS, CLASS-IV
CHAPTER -6 (WEIGHT)
WORKSHEET (STANDARD)

Choose the correct option:

1. 5 Centigram = _____g
(a) 5 (b) 500 (c) 5000 (d) 50000
2. Weight of a bag of cement
(a) gram (b) kilogram (c) milligram (d) Centigram
3. The smallest unit of Weight is
(a) kilogram (b) gram (c) milligram (d) centigram

Short Answer Type Question-I

Convert: 72565 g in to kg and g

5. Convert: 3 kg 15 g in to g

6. Convert: 15kg 5g in to g

Short Answer Type Question-II

7. Find the sum of 3 kg 520g, 7kg 95 g, 11 kg and 200g

8. Find the difference of 49 kg and 31 kg 286 g

Long Answer Type Question

9. A basket contains 65 kg 750g of fruits out of which 42 kg 150g are apples, 9 kg 750g are pears and the rest are mangoes. Find the weight of mangoes.

Reasoning Question :

10. Find the Weight of Water melon if

Weight of (Mango + Apple) = 1kg 100gm

Weight of (Mango+Apple +Watermelon) = 3kg 50 gm
